COLOUR CHART

AS 1530.1 CERTIFIED AND TESTED
100% SOLID ALUMINIUM

Alfrex Solid is a PPG Duranar Fluoropolymer Pre-Painted Aluminium Solid Panel Manufactured by high quality Roll Coating (roll-to-roll continuous) method. It features a primer coating to protect the rear finish and can be easily fabricated to any shape or design. Alfrex Solid has no core material, giving the product superior fire resistance.

APPLICATIONS

Exterior facade and interior panel for new buildings and renovations.

Commercial building, high-rise apartment, factory, shopping centre.

Subway station and column cover

Tunnel inner wall cladding

Re-cladding

Signage

Office and interior partition
